

Reimbursement

Reimbursement issues, whether a provider has been paid too much or too little, can be daunting to a practice, especially those with limited income streams. Whether your practice is challenging a law, regulation, or CMS interpretation of a payment issue, Liles Parker can assist you in presenting your case to the government. If you have questions regarding whether or not you've received an overpayment, or how a certain procedure should be coded and billed, our staff has the in-depth knowledge and expertise to critically examine your practices and give you the bottom line.
